

Tank Fittings

It is specially designed to install the tank fitting tube for holding the tank piping applications.

- Molded from highly UV stabilized, glass reinforced nylon or polypropylene (PP) materials.
- Resistant to a wide range of chemicals and bacteria
- Heavy duty tapered threads reduce cross-threading effects
- Suitable for potable water application
- Optional of NBR sealing washer or Polyethylene (PE) slip washer
- Extensive size range from 15mm – 100mm (1/2" to 4"), PN12.5 rating
